

Dear Friends and Family,

Created in 1946, the National MS Society supports individuals living with MS while also serving as a driving force of MS research, relentlessly pursuing prevention, treatment, and a cure. The MS Society is committed to building a movement by and for people with MS that will move us closer to a world free of this disease.

Mile by mile and dollar by dollar, Bike MS is changing lives. That's why I registered for Bike to the Bay and why I'm asking you to consider doing one of three things. You can either:

- Donate to my fundraising efforts
- Join me / my team
- Forward this email to others who might be interested in helping us raise money and create awareness

Your donation will support cutting-edge research and programs and services for everyone impacted by MS. Ending MS means that no one will receive an MS diagnosis again.

Every dollar helps. Every person makes a difference.

Thank you in advance,

XXX
